

READMISSION OF FORMER STUDENTS

Out of School One Semester

No readmission requirements are imposed on students who have dropped out of school for one semester.

International students on an F-1 Visa must maintain continuous enrollment as full-time students in order to maintain their visa status and avoid illegal residence in the United States.

Out of School More Than Two Semesters

Students who have not been enrolled for more than two semesters must submit an application for readmission to the Seminary along with all required elements. A non-refundable application fee of \$35.00 must also be included. The designated program committee reviews these materials, and the applicant will be advised of any special requirements concerning readmission.

Graduated but Returning

Students who graduate from Mid-America and want to return after one calendar year of graduation must complete a new application along with all required elements. A non-refundable readmission fee of \$35.00 must be included with the application.
